What We Do

As a adapted utility architect contractor MCN offers a broad range of services to provide increased service, convenience, and efficiency on every project. Services Include:

- Business Voice Communication and Data Networking
- Network Maintenance and Monitoring
- Cable Locating
- Geographic Information System GIS
- Trenching and Horizontal Directional Drilling
- Tower Installation and Inspection
- Inside Plant
- Outside Plant and Right of Way

MCN can handle all your towers needs as quickly as possible. These services include installation, maintenance, painting, servicing, inspections both aerial and by hand. MCN is a modern technological company being the first in the world to use Draganflyer Stabilized Aerial Video System Helicopter to help speed up the process of tower inspections.

MCN can provide cable system designs for your single floor office space, multi-story building and campus environment. Inside plant services are designed to promote timely, cost effective, and seamless Implementations. MCN designs, builds and maintains outside plant wired and wireless networks as well.

MCN is a full service network and telecommunications company that is capable of handling all of your corporate telecommunication needs. When an emergency arises our response crews are ready to roll out on the shortest call out time in the industry twenty four hours a day seven days a week three hundred and sixty five days of the year. Based out of Saskatoon, Saskatchewan MCN is there to provide the best service in all locations across Western Canada.
